

## Deardrums

### Deardrums LP - 12" Vinyl

- Debut LP from Italian duo after 2 acclaimed EPs on 2MR last year
- They will be touring as a live set to support the release along with some DJ sets
- Hometown: Venice, Italy

Acclaimed Italian pair Deardrums, aka Bottin and Leo di Angilla, proudly present their adventurous debut album on 2MR. The 13 track LP is a continuation of their analogue heavy and inventive synth style as showcased on their EP's to date which have received support from the likes of Laurent Garnier & Chloe and covers plenty of musical ground with great aplomb.

African influences, tin pot percussion and scorched synths all bring a real sense of savannah heat to proceedings on cuts like 'Mami Wata' and there is a sense of tribalism in the tightly programmed drums and claps of 'Mayan Machine' that really stands this one apart. Authentic and unique throughout, this is a brilliant LP that is hard to categorise but easy to love thanks to its constant evolution and wide sphere of sonic influences.

Deardrums will be touring in support of its release with both a full live show and select club Dj sets.
