

# Godspeed You! Black Emperor *Luciferian Towers*

180gLP • CD • DL

Release Date: 22 September 2017

this, this long-playing record, a thing we made in the midst of communal mess, raising dogs and children. eyes up and filled with dreadful joy – we aimed for wrong notes that explode, a quiet muttering amplified heavenward. we recorded it all in a burning motorboat.

(context as follows:)

1. UNDOING A LUCIFERIAN TOWERS – look at that fucking skyline! big lazy money writ in dull marble obelisks! imagine all those buildings much later on, hollowed out and stripped bare of wires and glass, listen- the wind is whistling through all 3,000 of its burning window-holes!

2. BOSSES HANG – labor, alienated from the wealth it creates, so that holy cow, most of us live precariously! kicking at it, but barely hanging on! also – the proud illuminations of our shortened lives! also – more of us than them! also – what we need now is shovels, wells, and barricades!

3. FAM / FAMINE – how they kill us = absentee landlord, burning high-rise. the loud panics of child-policemen and their exploding trigger-hands. with the dull edge of an arbitrary meritocracy. neglect, cancer maps, drone strike, famine. the forest is burning and soon they'll hunt us like wolves.

4. ANTHEM FOR NO STATE – kanada, emptied of its minerals and dirty oil. emptied of its trees and water. a crippled thing, drowning in a puddle, covered in ants. the ocean doesn't give a shit because it knows it's dying too.

finally and in conclusion;

the "luciferian towers" L.P. was informed by the following grand demands:

- + an end to foreign invasions
- + an end to borders
- + the total dismantling of the prison-industrial complex
- + healthcare, housing, food and water acknowledged as an inalienable human right
- + the expert fuckers who broke this world never get to speak again

much love to all the other lost and wondering ones,
