Available for wide release for the first time on one CD, Captured Tracks brings listeners the demos of Mac DeMarco's latest record 'Salad Days' as well as the demos for Mac's critically acclaimed '2'. Over the past few years we have watched Mac develop from a cult artist to a strandout figure amongst the realm of the indie-mainstream. From bedroom sessions to a string of chritical accolades, Mac is a true role-model for the young musician tinkering with their 4-rack tape recorder in a suburban bedroom - a sincere example of humble beginnings and honest, hard-earned acclaim

RELEASE DATE: JANUARY 20, 2015

GENRE: ALTERNATIVE/INDIE

These demos include several unreleased tracks on top of demos of songs we know and love from 'Salad Days' and '2'. These recordings give an intimate view into the world of Mac DeMarco like never before, taking listeners back to the roots of Mac's writing and recording, straight from his own bedroom "Jizz Jazz" studios. Filled with lofi fuzz built upon foundations of infectious pop melodies, this collection of songs showcases Mac DeMarco in his truest form. Two albums on one CD makes this release a truly unique and valuable piece of Mac's discography and is sure to have both dedicated and casual Mac fans alike lining up out side of their local record stores to pick up this truly special release.
