TRACK LISTING

1. Yamar
2. Words To My Song

Steeped in Caribbean flavor and seasoned with a fistful of hand-percussion, "Yamar" was initially sidelined from 2009's *Cult Cargo: Grand Bahama Goombay* for feeling less like cargo than an authentic piece of pan-American. Phish fans may recognize this previously unattainable A-side as it has been a staple in their setlists since the late '80s, imported by bassist Mike Gordon who heard the Mustangs performing it in a Bahamian hotel. Backed with the sweltering "Words To My Song," this doubler-sider is a must for any sea side or pool side DJ.
