RELEASE BIO

Female/male duo White Hex (Tara Green and Jimi Kritzler) released their debut album *Heat* in 2012 released on Avant! Records. 2014 sees their return with the follow up full-length, *Gold Nights*. The album is the second in a series of three thematically connected records which is based on a period of three years. The album's themes include tackling the deaths of friends over the past few years and somehow staying optimistic through that loss.

Recorded after shows in Paris, Berlin, New York and Melbourne, *Gold Nights* explores Italo disco, minimalist techno and the more primitive end of 1980's German underground. They embrace their love of high fashion, 1980's New York vogue techno and the mutant explorations of Whitehouse, Arthur Russell, Craig Leon and Gianni Rossi. *Gold Nights* retains certain elements of their beloved debut, but moves in a more sophisticated direction as a result of White Hex's vision and with the help of producer Alex Akers (Forces-Siberia Records).
