RELEASE BIO

PVT, known as Pivot to anyone in the know, are an act that's embraced technology at every turn - gritty, new, confronting - and their uncompromising songwriting and musical understanding have seen their first four albums released to global acclaim. After years of touring, the band wound up cast far and wide, residing each in a different continent. 2017 sees members Dave Miller along with brothers Richard & Laurence Pike return home to Australia with their fifth album, *New Spirit*.

This album contains that beautiful type of music written out of compulsion, a calling and an impulse to explore the new place that Australia has become -- a hotbed for political and cultural intolerance. The country has succumbed to divisive politics and irrational fear. Obvious fraud and immorality driven by a gutless media and an indifferent public.

PVT's uncompromising approach to musical self-determination has never been this sharp, and especially never this political. The sound of the record itself is that of a stark digital future, but under the surface there's nostalgia for a different time, another way of thinking, another life. PVT are exploring. Expanding on expectations. They carry with them the bravery and courage of the old explorer with the tolerance and understanding of the new. And they want you to join them.
