RELEASE BIO

Epoch is the final album in the trilogy beginning with 2011's *Dive*, then 2014's *Awake*. This period between *Dive* and *Epoch* marks a significant maturation for Scott Hansen's continually expanding project, one that has taken him from a solo performer and bedroom artist to fronting a live 4-piece band on large stages across the world.

Epoch hones the sonic aesthetic of *Dive* while drawing on the kinetic energy of *Awake*, it explores darker themes and new musical territory. The album was produced and recorded by Hansen predominantly in his home studio in Berkeley, California. The album was arranged alongside long time collaborator and partner in the project, Zac Brown. Brown contributed bass and guitar parts to the songwriting process. Rory O'Connor performed drums on the album. Hansen sees *Epoch* as a multi-dimensional artistic vision at the confluence of his graphic design work via ISO50 and music with Tycho. The graphic presentation of album artwork is as important as the music itself. The keystone is the central image of *Epoch* and the colors scheme red and black. This is a stark contrast to the almost rainbow palette of *Awake*.
