### RELEASE BIO

Ghost Ramp presents the original score to the critically acclaimed, indie-darling video game, *The Norwood Suite*!

The successor to Cosmo D's *Off-Peak*, *The Norwood Suite* is a surreal first-person adventure. Journey to the secluded Hotel Norwood, where odd characters, forgotten secrets, and head-nodding music await... There's 'a bit much', and then there's Hotel Norwood, a musical theme attraction so over-the-top it puts both *Graceland* and *Dollywood* to shame.

Cosmo D's avant garde, jazz-influenced score is a breath of fresh air in the world of video game music, and can stand alone as its own brilliant piece of music. Inspired by legendary composer/sax-aphonist John Zorn, Cosmo D uses the format of a video game to explore heavier, surreal ideas and themes by emphasizing his ever present and always impressive soundtrack. Pressed on gorgeous black-in-blue vinyl, this soundtrack is a must have for all fans of the instrumental and experimental. Soothing, mysterious, hypnotic and off-kilter all at once, *The Norwood Suite* is a fascinating soundscape that you're guaranteed to play on repeat.

"A fascinating world... One of the most cohesive exploration games I've played." - PC Gamer

"There's magic within these halls." - Kotaku
