## OVERVIEW :

Built In Sun is a new project from Joe Plummer, drummer for The Shins, Cold War Kids and Mister Heavenly. Joe has also produced and co-recorded an all drum project called Hew Time (with Dale Crover and Coady Willis from The Melvins), released on Joyful Noise in 2014. Joe has also toured and recorded with Modest Mouse and The Black Heart Procession drums and percussion over the course of the last 10 years. Built In Sun started during touring breaks between The Shins "Port of Morrow" and Cold War Kids "Hold My Home" releases. Built in Sun began as an instrumental idea, with inspirations landing somewhere between John Cales "Fear", the punk vibe of the Wipers and John Reis, and his favorite soundtrackists John Brion and Clint Mansell. After the first instrumental mixes were finished (with the help of Richard Swift) he decided that the tunes and melodies just might be cool enough to ask a few of his pals to sing. Pall Jenkins (The Black Heart Procession) was the first. Within a day Pall sent back John John, with solid scratch vocals. Another song came the next day, with new ones following almost each day afterward.....There was no use to ask anyone else. The songs really came together with the addition of Pall's vocals and it felt great to collaborate with him again. With this, Built In Sun was complete, and is set to be released on PIAPTK, August 7th, 2015.
