On 7 December, Merge Records will reissue *Hot Issue*, a dozen turn-of-the-century new digs and old finds recorded by Redd Kross in Hollywood between 1980 and 2007.

Available on limited-edition translucent fluorescent green Peak Vinyl, licorice black vinyl, and CD, this collection of top-quality recordings features Redd Kross rarities and focuses on the band's most explosively creative period from the early '90s straight through to *Researching the Blues*, all mastered from the original source tapes for optimal audio fidelity by Bill Ingot and Dave Schultz at d2. An energetic compilation created to be a complete play experience with unreleased and rare tracks unearthed from the Jeff McDonald archives, *Hot Issue* is a total must for all Redd Kross fans around the world!
