

SFV ACID #2

Zane Reynolds (SFV ACID) hails from Reseda California, straight up through the dense smog and the rolling hills from the city of Los Angeles, San Fernando Valley. Zane has been making music alone, DJing, performing and experimenting since 2007. His music is much like the city he comes from, grid locked but open, raw, real and depending on which direction you are looking, a different visceral experience. Since his first vinyl release to the world "NEW WEST COAST" via PPM in March 2011, his creative MPC, 303, 808 skills have been shown and grown to everyone that listens up (and you will wish you had). Making waves with his approach and attitude, unmatched, minimal, abstract acid-house and always truly exceptional songs, it's time to know where SFV ACID comes from.

SFV ACID's "#2" sneaks in your head from the archives, deep, sought after and rare. While attending his last year of High School at Highland Hall High (Northridge, CA), Zane self released a handful of hand painted and hand drawn cassettes to his friends, he also left copies in random places throughout the San Fernando Valley including: Goodwill, Pierce Community College, In and Out Burger and Starbucks (what lucky fools). "#2" was dug up and pressed onto virgin vinyl by PPM for all of our listening pleasure. This record stands tall amongst his releases thus far, a gem, a gritty ass shaking dirty drive into the so cal sunset. A look at where Zane Reynolds started, so fresh and relevant, it's real, it's SFV ACID.
