### RELEASE BIO

*Ultimate Oceans* is the follow-up to 2012's *Coastlines*, a record that spent a couple weeks in the top 20 of the CMJ Top 200 Charts after having tracks featured by Noisey, Insound, and Consequence of Sound. Lead single "Galaxies" features **FAWNN**'s signature hooky boy/girl harmonies, melodic guitar interplay and undeniable rhythm grooves, but like many of the more immediate cuts on *Ultimate Oceans*, the band has added a John-Hughes-era-credit-sequence chorus that is sure to have you fumbling for the "repeat" button.

The *Ultimate Oceans* vinyl release features a spliff-and-headphone-friendly track sequence, complete with lock out grooves so you can continue your trip right on into next week, if you want. And, it comes with a digital download coupon, in case you decide to go back to work at some point and want to keep the party rolling. The *Ultimate Oceans* CD release includes four remixes by Zach Shipp (Electric Six, Ladytron, Belle Ghou, Midnight Juggernauts), along with album outtake "Pixelfire," which is Such. A. Jam.
