

Wymond Miles

Cut Yourself Free

On the heels of last years critically acclaimed debut LP *Under the Pale Moon*, and *Earth Has Doors* EP comes the sophomore full length from Wymond Miles, guitarist of San Francisco garage-pop titans **The Fresh & Onlys**. *Cut Yourself Free* assembles another convergence of moon-lit romantic swagger and post-punk massacred urgency. Again self recorded and produced to tape, Miles' song-craft has emerged more refined and poignant, benefitting from the avalanche of his frenzied live shows, but also adhering to a more minimalistic fashion with crooning mid-era Nick Cave or Bowie/Roxy Music strains of pop-modernism. But what stands at the forefront is Miles' command of his textural guitar and vintage-synth sprawl that on his choosing can open dream-like vistas, or pierce with an engine's snarl. Turning to the narrative, Miles weaves each song with its own vignette of story line, often with a vaguely obscured protagonist/antagonist dialog. Relationships in Miles' sketches are always tangled, if not licentious affairs, but are presented more as lustrous gateways to mend and revitalize rather than squalor in.

Press Quotes:

"Sounding at times like Robert Smith fronting the Bad Seeds...it's Miles's hooks, expert six-string playing and tactful placement of sounds that make the album a luminous whole."—[eMusic](#)

"Miles is excellent at conveying a feeling in his compositions... He croons every song with a delicate, throaty warble that's flawed, yet effective in its ability to tap into a specific song's mood."—[Pitchfork](#)

"...a tumbling journey through Miles' mind that emulates that satisfying feeling of flicking from radio station to station and hearing nothing but jams, while still wondering what will come next."—[Prefix Mag](#)
