ABOUT THE ALBUM

Precision, minimalism, repetition, and unsettling deviations of said repetition — these are the building blocks of the surly universe created by Montreal's Suuns. It's a universe of high tension. A universe of resistance and surrender to all the hopelessness, anxiety and privilege of being self aware out here at the edge of history. Now, with Grammy-winning producer John Congleton at the helm, Suuns's sonic cornerstones have become heavier, more penetrating, nearly tactile. *Hold/Still*, their 3rd proper album, exists at the intersection of *20 Jazz Funk Greats* and *Kid A* — a serpent's hiss that is also yearning and hot-blooded. Its contents are the proof as to why Suuns absolutely deserve to be listed next to the names of dark groove adventurers like Stott, Forest Swords, Arca and Haxan Cloak. You've been proper warned.
