

serpentwithfeet

soil

About the album

serpentwithfeet is an avant-garde vocalist and performance artist whose growing body of work is rooted in dueling obsessions with the ephemeral and the everlasting – key components of his artistic journey from a childhood stint as a choirboy in Baltimore through his time at The University of the Arts in Philadelphia, where he studied vocal performance before relocating to New York City. His forthcoming debut full-length album *soil* is a return to the sensibilities and wide-eyed curiosity of his musical youth before symmetry and sterile soundscapes ruled the roost. With the release of *soil* the chameleonic serpentwithfeet (born Josiah Wise) rediscovers and ultimately returns to the unhinged version of himself he was sure he had outgrown.

With this album I gave myself permission to let the leaves grow, let the flowers bloom, let myself be hairy and let my sound be hairy. I'm excited about the way things naturally come out of my body. I am always going to embrace discipline and streamlining. But I'm in a space at the moment where I don't need or desire the corset. It's time for expansiveness."

Selling Points

- Co-produced by serpentwithfeet and mmph, Katie Gately, Clams Casino (A\$AP Rocky, FKA Twigs, The Weeknd) and Paul Epworth (Adele, Bruno Mars)
- serpentwithfeet will be on the cover of FADER pre-release, spring '18
