ABOUT THE ALBUM

Society would deem a prodigious girl can't be in a progressive rock band while also being in complete control of its creative vision, business plan and social messaging. Society is wrong. Clementine Creevy, a 19 year old teen Queen, dreamed up Cherry Glazerr in her LA bedroom alone and is perhaps more capable of figuring a music career out than anyone who attempts this treacherous life path.

Back in 2014, much-loved Cali imprint Burger Records released Cherry Glazerr's intoxicating debut *Haxel Princess*. The New York Times called "Grilled Cheese" one of their Top Songs of 2014 alongside heavy hitters such as Beyonce, Taylor Swift and Future. The band toured across the country and abroad, between Clementine's acting responsibilities on the award-winning show *Transparent*, and gained fans everywhere with their wild lives shows.
