### BIO

Originally released on CD and Digital formats only, *Talk Amongst the Trees* was eventually available on vinyl exclusively as part of the *Life Through Bombardment Vol. 1* box set. With that set long out of print, we are delighted to finally reissue this stunning album on vinyl. Remastered for vinyl by Roger Seibel at SAE Mastering, this limited-edition 2xLP set is packaged in a full-color wide-spine jacket with dual heavyweight full-color inner sleeves.

"Finds that crucial edge between "too pretty" and "too noisy" and rides it like a water-skier pushed along by the lip of the boat's wake." – *Pitchfork*

"If you entertain any affection at all for the airy, numinous realms of abstract sound, this might just be your new favorite record." – *PopMatters*

"Poignant enough to rub microtones with **Eno's** beatless classics, *Trees* stands tall among the era's elite sound paintings." – *XLR8R*
