BIO

Following the release of *Verdugo Hills* – the second album from **Caroline**, the Japanese electronic-pop songstress and **Mice Parade** alum – a slew of her peers graciously answered our calls for remixes and reinterpretations of every song from the acclaimed album. Not surprisingly, the results are more successful and less ephemeral than most remix albums – a testament not only to the ingenuity of the various remixers on deck, but also **Caroline's** weightless, angelic vocals which transcend even the most jarring sonic manipulations.

Along with **Caroline's** bandmates in **Mice Parade**, remixers include: **Eluvium**, **Manual**, **Dntel**, **Dead Waiter**, **Lumia**, **Her Space Holiday**, **Rory Vallis**, **Dan Lippel**, and **JNH**. Additionally, the album comes with a free MP3 download code that includes a bonus remix by **Doug Scharin** of **Mice Parade/Codeine/June of 44** fame.

“A beautiful experiment in minimalist pop arrangements and angelic vocals.” – *Pitchfork*

“**Caroline's** voice is like nothing else out there, her sweet tones will wrap you in a trance that's near impossible to escape.” – *Indie Rock Reviews*

“I have added *Verdugo Hills* to my list of favorite musical vacation spots, along with the evergreen pastures of **Múm's** *Finally We Are No One* and the glossy slopes of **Björk's** *Vespertine*.” – *Hyphen*
