BIO

Twenty years is a long time. It's a very long time to do the same thing. It's a *VERY* long time to be in a band, especially with the same five people. If pressed, we can think of less than a half dozen active rock bands with such credentials – and none of them have had the inspired, unexpected creative trajectory of the legendary **Envy**.

Formed in 1992 with an average age of 15 years old, **Envy** began as a blistering punk quintet, whipping violent riffs into frantic bursts that rarely cracked the two-minute mark. Their inexhaustible exploration of new sounds and ideas would lead them to incorporate strains of a experimental noise, subtle ambience, and triumphant, cinematic rock. By the time they released their third album, *A Dead Sinking Story* in 2003, they were hardly recognizable as the same band that unleashed the breakneck debut, *From Here To Eternity*, just five years earlier. Their unique evolution continued through the sprawling epic, *Insomniac Doze* (2006), and their latest album, *Recitation* (2010). Along the way they've inspired and influenced a litany of like-minded artists (including **Mogwai**, **Converge**, and **ISIS**), and teamed up with numerous artists for split releases and tours (**Jesu**, **Thursday**, **Trash Talk**, **Touché Amoré**).

Invariable Will, Recurring Ebbs and Flows is a limited-edition super-deluxe box set that collects every song ever recorded by **Envy** (95 songs in total) across 14 vinyl LPs, all remastered for vinyl in 2013. Each record is housed in its own full-color jacket, featuring all new artwork. Also included is a brand new, previously unreleased 100-minute DVD, a DVD data disk packed with all 95 songs in high-quality MP3 format, and a 100-page coffee table book featuring dozens of exclusive photos, plus lyrics to every **Envy** song, transcribed in both Japanese and English languages. The entire mind-blowing package is housed in a sturdy custom outer box – printed on a custom reflective metallic foil board. Strictly limited to 1,000 copies, *Invariable Will* is a monument to one of underground music's most enigmatic bands, and a celebration of their unfettered brilliance.
