PRESS

"Few bands have attempted what [Low] have already perfected."
– *Pitchfork*

"Low have always sought to make music that can both swell the heart like a gospel tune and capture the amplified absence of a funeral parlour." – *NME*

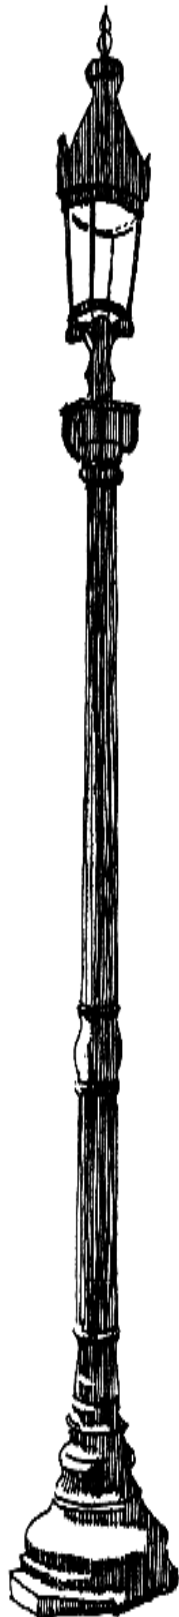

"Just plain beautiful."
– *Entertainment Weekly*

BIO

At the turn of the 21st Century, sandwiched between two of their most iconic albums – *Secret Name* and *Things We Lost In The Fire* – Low released *The Exit Papers* as part of Temporary Residence Ltd.'s long-running CD subscription series, *Travels In Constants*. A sparse suite of six mostly instrumental pieces composed for a film that never existed, *The Exit Papers* still stands as Low's most haunting and experimental work. Originally released exclusively on CD in a scarce edition of only 1,000 copies, Low helps celebrate the 20th anniversary of Temporary Residence by finally releasing *The Exit Papers* on vinyl and all digital formats for the first time ever.

The vinyl format of *The Exit Papers* is a limited edition of 2,000 copies available to retail stores worldwide.
