PRESS

"It is a rare feat for popular music to convey what **Milan Kundera** poignantly defined as the unbearable lightness of being. Over the last two decades of crafting pristine yet profound, meticulous yet visceral and humane music, **Mogwai** have arguably come closer than anybody."
– *The Guardian*

BIO

As the standout single from their transportive new album, *Every Country's Sun*, "Party In The Dark" is **Mogwai's** most fully realized art-pop sing-along of their storied history – a head-spinning disco-dream double-helix echoing **New Order** and **The Flaming Lips**, featuring guitarist/vocalist Stuart Braithwaite's seldom-heard melodic vocals declaring he's "directionless and innocent, searching for another piece of mind". This is music as a keep-out chrysalis, protective audio armor through exalting organs and portentous, dissonant guitar fuzz warping at the edges, bending the world inside-out into a reality in which you'd much rather live.

SPECIAL VALUE-ADD OFFER:

Available at participating retailers, this 7" comes with a coupon for \$2 off the purchase of the new **Mogwai** album, *Every Country's Sun* (TRR291).
